By State Law (Government Code section 54347, Water Code section 22079), Fair Oaks Water District has the right to seek payment from the legal property owner for unpaid water service balances. Unpaid balances on water accounts may be applied to the real property, and could potentially result in a lien being placed against the property title.

For this reason, the District requires the property owner to keep the water service billing in their own name, but as a courtesy, the District will place tenant /management in "care of" on account.

I have read and consent to the terms of this agreement.
