

Engineering Services and Recommendations for
Transmission Mains Replacement Program

Responses to Clarifying Questions

Clarifying Questions

- 1. Is the District open to various methods for condition assessment of the pipes?*

Answer: Yes, District is open for various methods to assess condition of existing pipeline. The consultant shall list and describe these methods in their proposal.

- 2. What level of detail are you looking for as far as development of plans for the alternatives?*

Answer: The consultant shall identify at least the following:

1. Alignment, materials and sizes for proposed transmission main replacement
2. Construction methods and probable cost of installation
3. List of the required regulatory requirements and approval

- 3. Do you have a specific method in mind for the cost benefit analysis?*

Answer: It is expected that Consultant will use the Net Present Value approach for different scenarios and alternatives.
