

Customer Agreement for Construction Water

FOR TEMPORARY USE OF AN APPROVED FIRE HYDRANT METER AND BACKFLOW DEVICE (CUSTOMER OWNED)

This Agreement is made by and between Fair Oaks Water District (District) and _____

(Print name, address and phone number of responsible party or applicant)

for temporary use of construction water. Applicant will be responsible for maintaining the meter and backflow device (Assembly) in good working condition, applicant will make (Assembly) available for inspection to District employees during construction activities. The meter and backflow device must be connected to a fire hydrant, designated by the District and must be used only to provide temporary service for construction activities. Location of the fire hydrant is _____ (see map)

The refundable deposit of \$500.00 must be paid to the District upon verification and certification of an approved meter and backflow device. District staff will confirm meter read prior to signing agreement. Upon completion of construction activity, the responsible party shall return with temp meter to the District office and verify ending read on the meter to calculate usage, the District will then refund any remaining deposit to the Applicant within 60 days. *Failure to provide the District with an ending read within 10 business days of completion shall constitute forfeiture of any remaining refund.*

The following rates will be applied for water usage through the meter: **\$1.66** per one (1) CCF or 748 Gallons.

The annual certification of the backflow assembly shall be the owner's responsibility. Owner shall provide District staff with verification prior to approval for use. Fair Oaks Water District will (at owners consent) certify the backflow device at the district office. Cost for certification is **\$125.00** payable to Fair Oaks Water District.

I understand that I will be responsible for any additional charges incurred by me, should construction water use exceed my original deposit amount of \$500.00. The District will bill me for the remaining amount owed.
